Commenting Standards

The commenting standards for ©bytebrigade Django applications.

Class(Models) Comments:

```
"""

*** < Model Name >***
< Model description for the model. >

Model Field:
    < Field Name >: < Field description >
        ......
< Anything that need to be noticed.>
"""
```

Function (Support function) Comments:

```
"""

<Function description for view>

Parameters:
    <Name>: <Description>
        ......
Return:
    <Name>: <Description>
"""
```

Function (View Backend) Comments:

```
"""

Web backend for'../<Application URL>/<Page URL>/' (name '<Page Name>')
<Function description for view>

Return:
    <Page and data to be return based on situation>
        ......
"""
```

URLS (urls.py) Comments:

```
"""

<Application Name (cap)> APPLICATION URLS
(BASED ON '../<Application URL>/')
"""
```

JavaScript Comments:

```
"""

<Function description>

@Param: <Name>: <Description>

@Return: <Name>: <Description>
"""
```
